

POP and STACK

RULES

Get ready for the most addictive and exciting fun! This is Pop and Stack.

Players: 2-4

Ages: 8+

Objective: Be the first to reach the finish line on the board by stacking your bubbles and earning points!

What You Need:

- 1 game board (23 spaces: Start to Finish)
- 50 category cards (like "Food," "Brands," "Names," etc.)
- 26 letter cards (A-Z)
- 20 bubbles (5 for each player in their color)
- 4 pompoms (1 for each player, matching their bubble color)
- 1-minute timer

An explosion of colors, unique pieces, and an elegant board design make every game unforgettable.

Setup:

1. Each player grabs 5 bubbles and a pompom in their color.
2. Place your pompom on the "Start" space on the board.
3. Shuffle the category cards and letter cards separately.
4. Place 4 random letter cards face up in the center of the board.
5. Draw one category card and place it face up.
6. Set the timer to 1 minute.

How to Play:

The challenge is simple... but the tension is real!

1. **Start the Timer:** Flip the timer to begin the round.
2. **Think Fast:** Using the 4 letters and the category card, come up with words that fit. For example:
 - Letters: A, S, B, D
 - Category: Fruits
 - Word: "Strawberry"
 - Place your bubble on the "S" card.
3. **Stack to Steal:** If someone else thinks of a different word using the same letter (e.g., "S" for "Strawberry" and "S" for "Salmonberry"), they stack their bubble on top of yours. Whoever's bubble is on top at the end of the round earns the points!
4. **No Duplicates:** Once a word is used, you can't repeat it in the same round.
5. **End of Round:** When the timer runs out, count the points:

- Each bubble on top of a stack = 1 point.
 - Move your pompom forward on the board based on the points you earned.
6. **Reset:** Replace the used letter cards with new ones, draw a new category, and start the next round.

Winning the Game:

The first player to reach the "Finish" space on the board wins!

Tiebreaker: If two or more players reach the finish in the same round, play one final round to break the tie. Most points in that round wins.

Quick Tips:

- Be creative and think fast — the more unique your word, the better your chances!
- Watch out for sneaky players stacking your bubbles; fight back with better words!

With its innovative design and super easy rules, Pop and Stack is perfect for family gatherings, game nights, or just having a great time.

Ready to take on the challenge? Pop and Stack, the game where the fun never stops.
